

CENTURY

The secondary students have continued to work hard on Century Tech during October. 33 of our students answered over 200 questions each this month which is excellent considering there was a half term break in the middle of the month and limited internet access at the end of the month. Well done to Sabrina for answering well over 1000 questions. It is great to see four of our year 7 students in the top ten. Who will be in the top ten next month?
