

French Club Fridays: Building Confidence Through Conversation

Every Friday after school, our enthusiastic French learners gather for the French Club—an engaging and supportive space designed to help students develop their speaking confidence and communication skills in French.

Each session begins with visually stimulating image prompts that spark lively discussions. Students use these images to describe scenes, share ideas, and practise expressing their opinions in French, helping them build both vocabulary and fluency in a natural, interactive way.

We also incorporate short, carefully selected video clips that expose learners to authentic French language and culture. After watching, students take part in guided conversations where they discuss what they have seen, ask questions, and exchange viewpoints entirely in French.

French Club is not only about language improvement; it also nurtures curiosity, teamwork, and the joy of discovering new perspectives. It has been wonderful to see students grow in confidence as they speak more spontaneously and creatively each week.

We look forward to welcoming even more students who are eager to strengthen their French and enjoy meaningful conversation in a relaxed and encouraging environment.
